

Ugo Rivolta European Architecture Award

The jury of the "Ugo Rivolta European Architecture award" met yesterday, sept the 26th 2007, to judge the 46 projects arrived from Austria, Bulgaria, France, Italy, The Netherlands, Portugal, Spain and Switzerland.

After nominating Guido Morpurgo to substitute Luciano Niero, who could not attend the meeting for unforeseen and sudden commitments, and the nomination of David Chipperfield as President, the jury defines the evaluation criteria:

- the appropriateness of the project within the context
- the relationship between housing and other correlated functions
- ecological and social sustainability

Before evaluating the projects to admit them to final stage, the jury examines the reports, the drawings and looks over the pictures of all the enrolled buildings.

After carefully re-examining all documents, concluding the sitting, the projects admitted to the final stage of the "Ugo Rivolta European Architecture award" are the following 18:
